Afternoon Tea, Cold Supper and Parcel Post Sale Saturday

On Saturday afternoon, June 27th, the W.A. will sponsor an afternoon tea, cold supper and parcel post sale at the home of Mrs. Clifgard. Afternoon tea, 3.45 p.m.; 25¢; Cold Supper, 6.7 p.m.; 25¢; Parcel Post-Sale, 25¢.

Census Questions

These are the questions that will be asked about each person by the Dominion Government census-taker, Mr. Robert:

- 1 Your name and where you live
- 2 Is your home owned or rented
- 3 If you own your home give the value, if you rent it, the rent per month
- 4 How many rooms are in your home and is it an apartment house or terrace, a semi-detached house, a single house or a flat?
- 5 Your relationship to the household (whether head, wife, son, daughter, uncle, boarder, etc.)
- 6 What is your sex
- 7 Are you single, married, widowed or divorced
- 8 What was your age at last birthday
- 9 In what province of Canada or in what other country were you born
- 10 If you were not born in Canada in what year did you immigrate, and in what year were you naturalized? (For other than British born)

11 What is your nationality i.e., to what country do you owe allegiance

- 12 What is your racial origin
- 13 Are you able to speak English or French
- 14 What is your mother tongue
- 15 Are you able to read and write
- 16 How many years have you attended school
- 17 How many months at school since Sept. 1, 1935 (For persons of school age)
- 18 If employed, what is your present occupation (as carpenter, farm labourer, insurance agent, etc.) If you have no gain

(Continued on page 4)

Stampede to be Feature on CFAC

The Calgary Exhibition and Stampede will be featured on CFAC in Calgary again this year, starting with the opening features—the Stampede Parade—at 10 o'clock on Monday, July 6th. This parade, one of the main features of the yearly Calgary Stampede will be described from CFAC's private broadcasting box. A word picture of this colorful parade as it stretches mile after mile past the reviewing point will be given to those who are not fortunate enough to attend this parade of the Old West. The parade will include Indians in full dress regalia, picturesque gypsies from all over the country, chuck wagons, and from many bands and complete ranch "outfits." In addition, CFAC will broadcast each day from the Exhibition Grounds, the Stampede events and contests will be brought to listeners, giving you some idea of how the Stampede is conducted.

BASEBALL League Game

Champion vs. Arrowwood

FRIDAY, JUNE 26th
6:30 p.m.

Brethren Church Notes

The Pastor will give a report of the recent Hershey Conference at the Sunday morning service of the Church of the Brethren.

Business meeting at the Church of the Brethren next Tuesday evening.

Appreciation

The Arrowwood Community Club wish to take this opportunity of thanking all those who so kindly donated to and supported the lunch they sponsored for the June 3rd dance.

Total Receipts - - - \$39.33
Total expenses, including Ice Cream - - - \$7.20

Net Proceeds \$32.18

FIRST ... THE TRUTH

THE same man is a hero to his friend and a rante to his enemy. Opinions differ. Opinions will always differ. But an intelligent opinion is possible only when all the facts are known. That is—the facts—the news—these are the essentials. You must have them to think clearly, to decide intelligently on any question. And you need not be without them. News of every event of importance, every issue, every angle, is brought to you by the press—not just one version, but the whole truth it can be drawn from every available source.

A GOOD newspaper's own expressions of opinion are confined to its editorial column. The integrity of its news column is inviolate. They present the discoverable facts, uncolored by politics or allegiance to any group or faction. Your inalienable right to form your own opinion is unprejudiced.

A FREE and unhampered press—a liberty that is denied in many other countries—that is what the independent daily and weekly newspapers of Alberta offer you. They give a voice to current opinion that is heard in high places. They are a perpetual safeguard to the freedom and welfare of the people.

YOU OWE IT TO YOURSELF TO SUPPORT THE NEWSPAPER THAT SPEAKS IN YOUR INTERESTS.

BASEBALL NOTES

The local ball tossers have been smashing their way into a play-off position in the foothills League this week by winning 2 games on the local diamond.

Wednesday night the Vulcan nine were in town playing host to the Panthers and after 8 innings of baseball the game was called on account of darkness with Vulcan trailing by a 14-9 score. The Veteran Panther hurler, Fred Miller, performed fine for the first 4 innings in great style to set the visitors down with but 2 runs. With this steady hurling the Panthers were on a rampage in the third inning to score 7 runs before being retired. Two more veterans of the diamond were in the spot-light too, these being Billy Meeks and Bert Monsinger of the visitors. Roor was the sharp-eyed hitter for Vulcan collecting five hits in five times at bat. Casey Norton finished the game for Arrowwood and coasted along to an easy victory.

Ar'd-M. Norton c, Sharpe of, Bowman 1b, McCullough 2b, Bowman ss, Still 3b, Norton p, Dumka rf, Vancil 3b, Miller p, Vulcan - Ulrich 1b, Lundgren if, Snov ss, Roror c, Craig 3b, Menninger 2b, Flynn rf, Fulton or, Pederson 2b, Moldenhauer p.

PANTHERS 6—NANTON 5

Monday night's fixture on the local diamond was a regular league game with Nanton opposing the local nine. Fred Miller erstwhile veteran of the mound, kept the Nanton bats well scattered, coming through in grand style to win the game with steady clutching. The visitors scored a brace of runs in the first 2 innings on runs by Mackenzie and Larsen. The Panthers came to life in the 3rd when M. Norton crossed the plate with a run. In the 5th inning McCullough drove the ball to short right field to score a home run and drive in three runs. Norton tied the score up at 5-5 in the first half of the 9th but the Panthers rallied when Sharpe was safe on an error, and Bowman was safe on an error. With Sharpe on 3rd McCullough came through with a fielder's choice to score Sharpe and the game. Bastin the League's best batter demonstrated his ability by hitting safely four times in four.

Ar'd-Norton c, Sharpe of, Bowman 1b, McCullough 2b, Still 2b, Bowman ss, Dumka rf, Vancil 3b, Wilson 3b, Miller p, Nanton - Buck ss, Kitchen 1b, Mackenzie c, Bastin hf, Stobo 2b, Geddes cf, Larsen 3b, Wilson p, Koch p.

Watkin's Fly Spray

Buy your season's Fly Spray requirements now. You will have Fly Spray on hand in time to control the fly pest before the flies start breeding by the million.

CUSTOMERS' Robbie Watkins Fly Spray IS BEST BECAUSE

- (1) It actually kills flies,
- (2) it repels flies, (3) it is clean, does not gum,
- (4) sweet-smelling, will not taint milk or other products,
- (5) economical to use.

Calgary's Famous Stampede to be Held

July 6th to 11th

Rated as one of the most colorful shows of its kind on the continent, the Calgary Exhibition and Stampede will stage its fifty-first annual event from July 6th to 11th. This famous Stampede annually attracts tens of thousands of visitors from all over Canada and the United States, and the programme planned for this year's show is exceptionally outstanding. From all indications the attendance will surpass last year's record when 223,808 people visited the Exhibition Grounds.

The opening event on Monday Morning, July 6th, will be the famous Stampede Parade, at which it is estimated fifty-thousand people will be spectators. This procession is several miles long, and it is a thrilling sight to witness with hundreds of Indians and Cowboys in their picturesque costumes, Mounted Police, Chuck Wagons, twelve hundred horses and some twenty bands providing the music.

The Stampede itself will be held every afternoon, with be-

tween five and six hundred entries, including the greatest riders and ropers on the American continent. All events are competitive and include the North American and Canadian championships in Bucking Horse, Riding Contest, Wild Steer Riding, Wild Stage Decorating, Wild Horse Race, Wild Cow Milking, Indian Races and the famous Chuck Wagon Races. Running Horse Races—seven races each afternoon starting the Saturday before the Stampede. The Stampede will present more than six thousand entries in the several departments.

The Passing Parade is the title of the extraordinary Grandstand production to be presented before the evening audiences, a colorful musical review, featuring a combination of outstanding acts, including some of the cleverest vaudeville performers in existence.

Hunter's Paradise, and the House of Magic are two outstanding exhibits that thrilled thousands of visitors last year. These are being held over again this, and will present several new improvements.

The Grand Livestock Review held on Friday morning of Stampede week is always presented to a capacity audience.

Boys and girls 16 years or under are admitted free to this event. Valuable prizes will be presented.

The Old Timers Reunion, an annual event of the Stampede with have their headquarters in the log cabin on the Exhibition Grounds.

The Midway attraction at this year's show will present the Royal American Shows with many new features and rides.

The Grand Finale of the Stampede on Saturday night will present one of the most spectacular Fireworks displays ever shown at an outdoor exhibition. This feature alone has always attracted a capacity audience. Other events of the last night show will include the presentation of prizes to Stampede champions and the march past of Indians in their colorful costumes, as well as the monster "Passing Parade" stage presentation.

Special Railways passenger fares of single fare for the return trip have been arranged from points in Saskatchewan and Alberta, and from the British Columbia mainland. Summer excursion fares from anywhere to beautiful Banff, with stop-over privileges in Calgary can be arranged. Low bus fares will also be in force.

Developing Hudson's Bay Route

Recent announcements of efforts that are being made to interest British capital and Federal provincial governments to aid in extending the sphere of influence and service of Churchill the Canadian port of the Hudson's Bay route by construction of rail extensions to give direct connection between the Great Lakes and the Pacific Coast as well as the Arctic and the Pacific Coast are stimulating public interest in the possibilities of further development of this comparatively new trade channel.

The past few months has seen the birth of proposals that Winnipeg should be given direct connection with Churchill by construction of a road due north from that city which would cut off about one-third of the distance between the Great Lakes and the Pacific Coast. One plan is that a line should be built from Big River, Saskatchewan through the Lake Athabasca country, giving Prince Albert direct connection with Hudson's Bay and bringing Saskatchewan closer; that a link should be made between that line and the Alberta Great Waterways Railway giving Edmonton and Calgary connection with Churchill and also, via Edmonton, a line from Churchill to Vancouver. Another proposal is to extend the Canadian Pacific capital to the B.C. coast port and finally, a suggestion of a more direct line between the Pacific Coast and Churchill through the Peace River country.

It is not likely that all these lines will be built at once, but as many advantages can be claimed for them that it is reasonable to believe extensions will be made from time to time, as the need for them becomes more apparent, and that in course of time, perhaps not so far distant, a more or less direct northern route from Churchill to the Pacific Coast will be an actuality. Just how long that will be is a matter of pure conjecture at this stage.

Some of the advantages claimed for these extensions are that they would make possible the development of the rich mineral lands in the north of Canada and areas with greater rapidities and shorter distances between Hudson's Bay and the interior centres and result in decreased freight levies on many incoming and outgoing commodities and that a shorter overland route would tend to promote more tourist traffic between Europe and the Orient. It is also contended that the construction of a direct north route between the Pacific and the Bay would have distinct military value in the event of Canada becoming embroiled with the United States since Vancouver would no longer be at the sole practical outlet on the western seaboard.

While the military aspect has not been overlooked, the promoters of this new northern network of communications are more particularly interested in the value it would have in developing the trade and commerce of the country, its potential effect on the free exchange of commodities between Western Canada and continental, particularly Great Britain and its possibility in promoting more local trade.

With the prospective development of the mineralized areas of this vast north country becoming more immediate the last-mentioned objectives is one which has immediate significance to the people of the western provinces and should be of particular interest to the farmers who, under existing conditions, are engaged in developing more and greater local markets for increasing values of farm products.

When the immensity of this great northland is reviewed and the undoubted great value of its resources is considered, the possibility of developing local markets for prairie farm products almost stretches the imagination. Because of the nature of the country almost everything required for sustenance of its workers will have to be shipped in and the natural economic source of supply for such commodities is the contiguous agricultural belt.

Then, too, direct railways into the northland will lure tourists from the United States to a country which to them, as well as to the majority of Canadians, is a land of mystery with unparalleled attractions for the love of the great outdoors and the outdoorsmen. They, too, will have to be fed on what is available and this, it must be remembered, is a strictly cash business. Moreover, tourists who can take excursions into such distant territory will not cavil at the few cents additional price they would have to pay, provided they can get the service they demand.

Although its first objective, the construction of a line to Hudson's Bay and of a port and industrial facilities at the northern seaboard has been named as the top priority, the Association does not mean its aim is completed and it is pleasing to note that the organization is continuing its efforts to make the venture a success in efforts to secure lower freight and insurance rates and to foster business via the comparatively new route.

When it is remembered that the Association only came into existence in 1923 its efforts have borne fruit of surprising magnitude in a very short space of time.

Looking Forward To Visit

King Edward VIII, looks forward to meeting on Vimy Ridge many of his former comrades of the Canadian corps, and is glad circumstances will permit him to visit Canada's national shrine on July 1st. According to a message received by Dr. S. Woods, Ottawa, vice-chairman of the national Vimy pilgrimage committee.

Movies in which actors "stand out from the screen" and appear in relief have been produced with experimental apparatus.

Some would rather get in the other fellow's way than not be noticed.

The only difference between a rut and a grave are the dimensions.

There is no guess work in the milling of Purity Flour. Twice-daily baking tests by our laboratories ensure even, dependable and uniform quality. Enjoy the finest cakes, pastry, rolls or bread you ever tasted. "Purity" goes farther.

World Power Station

Professor Believes Electricity Could Be Produced From Antarctic Gales

Electricity made by Antarctic gales may soon be used to illuminate every home in the world in the opinion of Prof. Frank Debenham, who was with Captain Scott on his ill-fated expedition and is now director of the Scott Polar Research Institute at Cambridge, England.

Prof. Debenham is confident that the present unexplored south polar regions, nearly 5,000,000 square miles in extent, with one day house to the greatest power-generating stations of the world.

"All round the continent," he says, "there terrific winds blow from the high plateaus and one day these may be harnessed to wind-driven generators. But we should have to wait until we have radio-transmission of power before this inexhaustible source of energy can be connected with the rest of the world."

No human or animal life exists in the Antarctic because, even if they could survive the rigors of the climate, there is no plant life.

To counteract this, however, the building of a permanent station and a meteorological observatory will be necessary, and building of subterranean cities for the ice-bound desolation and deadly blizzards of the Antarctic would not be fantastic.

Scientists now visualize the building of great meteoranen canals which would be protected with complete scientific civilization, artificial sunlight, air-conditioning which would put the climate under the control of man.

New Source of Heat

Blanket Of Ozone Above Earth Has Effect On Weather

A new source of hot weather which, strangely enough, seems to lie in the icy cold stratosphere was reported to the American Association for the Advancement of Science at Washington.

The heat source is a "blanket" of ozone which appears to reflect back to earth the heats which the earth's surface radiates upward. Ozone is a rare form of oxygen. How it acts as a one-way blanket which lets the sun's heat in but stops it from getting out from beneath was described by Brian O'Brien of the University of Rochester.

His heat theory, which is new, is one of the latest findings made by the National Geographic Society and the United States army air corps. He proposed it to the American Meteorological Society at the opening session of a three-day meeting of the science association.

He also attacked the old scientific instruments which showed quite definitely that above North America a blanket of ozone lies with its centre 15 to 20 miles above the earth.

The existence of this blanket has been established by O'Brien for not over 10 years. Evidence it has an effect upon the weather is new.

The ozone blanked, Prof. O'Brien explained, grows thicker or thinner as the sun's rays increase or diminish. It is a protection during the frequent periods when the sun gives off increased radiation.

Discover New Drug

Announcement Made By U.S. Department Of Agriculture

Outstanding success during the past year has been had in the treatment of burns, chronic ulcers and other non-healing wounds was announced from the United States department of agriculture.

Dr. William Robinson scientist who brought the chemical known as "Crown" syrup to the market, after testing its curative properties, said remarkable results have been obtained by physicians and surgeons throughout the country.

Speaking candidly, he said the drug must be regarded in the class of adulterated cures. Dr. Robinson said results thus far have led the members of the medical profession who have used it to extend the application of the treatment of other diseases and wounds, especially to heal under other treatment. These have included infections of the mouth, diabetic ulcers, and the bone disease known as osteomyelitis.

Started In Small Way

An amateur chemist, master and 50 youthful protégés—Arthur W. Delamont and the Vancouver Kitsilano boys' band are on a tour of Canada and the British Isles. The band rose from a humble beginning in a studio loft nine years ago.

Frost never will occur when there is a wind blowing or when there are heavy clouds near the earth. A clear still night, soon after a rain in the frost season, is most apt to produce a frost.

In Three Languages

Inscriptions To Be Engraved On Canadian Memorial At Vimy

Four inscriptions will be engraved on the Canadian war memorial at Vimy. Two will be in both English and French, one in French and one in Latin.

The main inscription on the westernly faces of the pylons will read:

"...the value of their countrymen in the Great War and in memory of their sixty thousand dead, this monument is raised by the people of Canada."

"A la vaillance des ses fils perdus la Grande Guerre, et en mémoire de ses soixante mille morts, ce monument est élevé par le peuple du Canada à ce monument."

On the inner face of the second front wall will appear:

"The Canadian corps, on April 9, 1917, in four days in battle in one front of four miles, attacked and captured this ridge."

"L'armée Canadienne, attaquant avec quatre divisions sur un front de six kilomètres empêche cette crête l'après-midi du 9 avril 1917."

As a tribute to French and British troops who suffered so heavily on the ground, these words will be engraved on the front face of one pylon near the figure of sacrifice:

"...to the French and British regiments in Canada to be buried."

On the tomb in front of the memorial a Latin inscription will appear:

"In memoriam sevagita milium Canadensis qui anno Domini MCMXIV—MCMXVIII. in ultra maris amorem pro patria utero defecit."

Rendered into English this is: "In memory of 60,000 Canadians who in the years 1914-1918 were slain in overseas of their own free will gave up their lives for their country."

SELECTED RECIPES

ALMOND CHEWS

Temperature: 350 degrees F.

Time: 1½ hour

1½ cup butter

¾ cup sugar

¼ cup "Crown Brand" Corn Syrup

2 eggs

1 teaspoon baking powder

½ cup bread flour

¼ cup Benson's Corn Starch

½ teaspoon salt

½ teaspoon almond flavoring

1 cup almonds

Cream the butter, add the sugar and "Crown Brand" Corn Syrup. Blend well. Add the yolks of the eggs, which have been beaten until stiff, and let stand for 15 minutes. Mix together the flour, Benson's Corn Starch, salt and baking powder and add to the first mixture; blend. Add the flavorings. Pat into shape in a greased pan 9" x 12" and on top spread the following meringue.

MERINGUE

Whites of 2 eggs

¾ cup brown sugar

¼ cup "Crown Brand" Corn Syrup

Stiffly beat the whites of the eggs until they are white and fluffy. Add "Crown Brand" Corn Syrup; beat again until the mixture peaks. Sprinkle the meringue with almonds which have been blanched and chopped. Bake ½ hour.

Looking For Fossils

Two Ottawa Men Will Work In Red Deer District

Looking for fossil evidences of the great dinosaurs which once roamed the western Canada plains, two Ottawa men have gone to the Red Deer district of Alberta.

They are C. Sternberg and R. M. Sternberg who have been sent out by the National Museum in Ottawa to study the region and look over the spots where fossil remains have been found in the past.

THERE'S something about cutting your own tobacco right off the plug that makes it taste fresher—and it smokes longer.

Conducting Forest Survey

Saskatchewan Plans To Protect Timber Against Excessive Cutting

A survey of cut over forests in Saskatchewan will be conducted annually by the Dominion forestry service, in cooperation with the provincial department of natural resources.

The province is anxious to get full information in order to determine the rate of growth of timber as a means of protecting the forest against excessive cutting.

Early in the year, Hon. W. E. Kerr, minister of natural resources, wrote to the federal government urging that a survey be made in the province this year. In pressing for the service, he spoke of the necessity of getting the province's lumbering operation on a sustained yield basis, to limit the cutting operations to the natural growth of trees, thus preserving for all time the forest resources of the province.

In reply to this request, the federal government has agreed to conduct the survey, and the work will be undertaken this summer.

Honorary Doctorate

Honorary degree of doctor of laws was conferred upon Hon. Horace Harvey chief justice of Alberta, who graduated in 1896, at a special convocation at the University of Toronto.

WHENEVER YOU SERVE FOOD OR DRINK—SERVE

RITZ

"Ritz" little wafers coated a delicate brown, that make good things taste better.

CRISBROWN

Everybody's serving these tender, toasted Wafers, at teas, lunches, suppers, dinners, parties.

FLEMING'S FOLLY

BY
LAWRENCE A. KEATING

CHAPTER XVIII.

Her face became white and Helen uttered a gasp of dismay. She took a step back as if duncing him. Little did she know his discomfited hearten, avoided her accusing eyes. He scarcely noticed Matt Benson, the renter of a small parcel of ranch land from his mother, after a hasty look behind him. Benson stared an instant, then turned and scurried off to reveal the precious morsel of news he had just chanced to overhear. At that moment a young, promising-looking fellow approached from behind and touched his boss's arm. He turned slowly to find the man tene with suppressed excitement.

"Link," he exclaimed, "I saw that homely old fellow checked shirt. He just went through the back door of the bank!"

"The bank?" A frown slowly rippled his forehead. "I saw Portt now. Wait and the other stopped at that moment and were quickly apprised of this discovery.

"What yuh goin' to do?" Byrnes' uneasy eyes noted Roper at the lead of loungers and cardplayers emerging from the Half Moon.

Census Questions

(Continued from page 1)

ful occupation, state whether you are a student, retired, homemaker, etc. If unemployed state the occupation at which you were last employed

(For all persons 14 years of age and over)
In what industry are you employed (dairy farm, iron foundry, street railway, dry goods, etc.) If unemployed state the industry in which last employed

Are you an employer, a wage earner, an unpaid family worker or are you working on your own?

Show your occupation at the present time may not be your usual occupation; you will be asked to state what is your usual occupation, industry and status therein.

If you are a wage-earner, you will be asked if you were at work on Monday, June 1, 1936. If you state "no", you will be asked whether it was because of: 1 no job, 2 lay-off, 3 strike or lock-out, 4 sickness, 5 accident, 6 holiday, 7 other reasons.
If you were not at work on

June 1, give the number of weeks since last employed.
If you have a job, you will be asked if you worked full time or part time or what.

21 You will also be asked the number of weeks you have worked during the last twelve months prior to June 1, 1936, including holidays with pay, and your total earnings during the same period.

ARROWWOOD ITEMS

The Indian Sundance is in full swing this week.

Mr. Julian Nobert is in Arrowwood taking the census.
